Subject Index
Volume 42

N-Acetyl-L-tyrosine, utilization during long-term TPN (rat), 585
Acid-base balance, food intake and, 951
Adipose tissue
  biopsy, rapid sampling technique and long-term storage of specimen, 317
  fat mobilization from, food intake and, 1093
  lipids, fatty acid composition, diet and, 1206
  regulation of, inventory control model, 914
Adolescent
  fatty acid composition of serum cholesteryl esters and diet, 708
  milk consumption, postmenopausal bone density and, 270
  obesity, hypocaloric dietary therapy, glucose and protein metabolism in, 380
  pregnant, zinc supplementation in, 815
  zinc and copper status of females, 235
Aerobic exercise, thermogenic effects, 764
Age
  free secretory component and IgA in secretions and, 281
  vitamin B_6 status and, 226
AIDS, body composition studies, 1255
Alcohol
  acute exposure, jejunal uptake of thiamin and, 121
  ingestion, relation to nutrient intake and relative body weight, 289
Alcoholism
  absorption of dietary zinc in, 688
  hepatic structure and function, serum selenium and, 147
  jejunal uptake of thiamin in, 121
Alfalfa meal, binding of iron ascorbate chelate and ferric chloride to, 618
Alkaline phosphatase, zinc and copper supplementation and, in preterm infant, 24
Altitude, hematologic response, 1
Amino acids, food intake and, 966
Anemia
  functional consequences in high-altitude population, 1
  iron deficiency, educational achievement and, 1221
Animal studies
  brain serotonin synthesis and diet (rat), 1072
  cereal dietary fiber and diverticular disease in rats, 788
  copper absorption from human milk, cow's milk and infant formulas (rat), 836
  determinants of dietary self-selection, 940
  dietary fats and colon tumors in rats, 475
  effects of sugar and starch on food utilization and thermogenesis (rat), 214
  immunohematologic effects of marginal zinc deprivation in monkeys, 252
  intestinal absorption of thiamin from yeast-containing sorghum beer (rat), 666
  lipid emulsions and reticuloendothelial function in healthy and burned guinea pigs, 855
  metabolic response to intravenous amino acids and energy substrates in rats, 61
  proximal transposition of ileum and mucosal growth and enzyme activity in rats, 805
  role of stomach in eating, 1040
  urinary catecholamines in iron-deficient rats, 263
  zinc deficiency and chylomicrons (rat), 671
  zinc deprivation and infant behavior (monkeys), 1229
Anorexia
  infection-induced, interleukin-1 and, 1179
  zinc deficiency and, in preschool Chinese children, 694
Anorexia nervosa
  thymulin (FTS-Zn) activity in, 275
  vitamin A and thyroid hormone status, 1183
Anthropometry
  indicators of mortality, 296
  nutritional status of children from Cusco, Peru, 531
  nutritional status of nonpregnant Bangladesh females, 725
  poverty-associated differences in child growth, 714
Apolipoproteins, zinc deficiency and (rat), 671
Appetite
  control of
    dietary effects on brain serotonin synthesis (rat), 1072
    physical state (liquid-solid) of foods and, 956
  loss of, in infectious illness, interleukin-1 and, 1179
  protein-supplemented diets and, 371
Ascorbic acid, *see* Vitamin C
Attention span, phenylalanine metabolites and, 361
Autonomic reflexes, diet and, 991

Bangladesh, nutrition and fertility, 725
Beef fat, plasma lipid and lipoprotein response to, 190
Behavior
  brain neurotransmitters in food and drug reward, 1133
  dietary neurotransmitter precursors and, 366
  infant
    nutrients and neurotransmitters and, 352
    zinc deficiency and (monkeys), 1229
  phenylalanine metabolites and, 361
  pleasure and physiologic conflicts, 1151
  rumination, 95
  school-age, nutritional supplementation and, 102
Benzodiazepines, drinking and feeding behavior and, 1099
Bile, cholesterol saturation, dietary cholesterol and, 414
Biliary tract, function, diet and, 1020
Bioelectric impedance instrumentation, for body composition measurement, validity of, 889
Biopsy, adipose tissue, rapid sampling method, 317
Birth weight
  doubling and tripling times—race, gender and type of feeding and, 182
  relation to subsequent weight gain, 57

Blood pressure
calcium intake and, in females, 135
calcium supplementation and, in females, 12
diet and, 1331
vitamin D intake and, in females, 135
Body composition
in AIDS patients, 1255
bioelectric impedance measurement of, validity, 889
Body weight, *see also* Weight loss
control of, insulin and, 1063
relation to alcohol consumption and nutrient intake, 289
Bone
density, postmenopausal, milk consumption during childhood and adolescence and, 270
loss, metacarpal, in elderly females, vitamin D supplementation in, 470
mineral content
in Aleuts (Eskimos), 143
diet and, 877
Book reviews
Clinical Nutrition, Vol. 1, Enteral and Tube Feeding, 2nd ed., John L. Rombeau and Michael D. Caldwell (eds), 166
Food Allergy, Patricia Scowen et al. (eds), 1356
Genetic Factors in Nutrition, A. Vlazquez and Hector Bourges (eds), 751
Lipid Research Methodology, Jon A. Story (ed), 167
Methylxanthine Beverages and Foods: Chemistry, Consumption and Health Effects, Gene A. Spiller (ed), 575
Nutritional Management. The Johns Hopkins Handbook, Mackenzie Walser et al., 574
Nutritional Prevention of Cardiovascular Disease, Walter Lovenburg and Yukio Yamori (eds), 751
Practical Comprehensive Treatment of Anorexia Nervosa and Bulimia, Arnold Andersen, 573
Vitamin and Mineral Requirements in Preterm Infants, Reginald C. Tsang (ed), 572
Brain
function, diet and, 348
5-hydroxytryptamine biosynthesis, in obese diabetics, 1240
serotonin levels, sleep behavior and, 352
serotonin synthesis, diet and (rat), 1072
Breast-feeding
duration, 504
incidence, 504, 864
Breath hydrogen, fermentation and passage rate of dietary fiber and, 44
Breath test, whole body oxidation of dietary fatty acids, 769
Brewer's yeast, supplementation in elderly, chromium status and, 454
Bulimia, vitamin A status, 1183
Butorphanol tartrate, food and water consumption and, 1175

Calcium
absorption, from milk and yogurt, by lactase-deficient persons, 1197
dietary
and blood pressure in females, 135
and bone mineral content in elderly patients, 877
supplementation
and blood pressure in females, 12
for hypertension, 1331
Calories
intake, in drinkers and nondrinkers, 289
supplementation, and children's school-age behavior, 102
Calorimetry
estimation of basal energy expenditure, 1170
indirect, energy metabolism during postexercise recovery, 69
Carbohydrate
dietary self-selection by experimental animals, 940
gastric emptying, pectin and, 495
intestinal digestion, 778
metabolic response to, in diabetic and nondiabetic persons, 449
Carnitine, plasma concentration, during hyperalimentation, 577
Casein, 1299
Catecholamines, urinary, in iron deficiency (rat), 263
Cellulose supplementation, serum cholesterol and, 207
α-Cellulose
binding of iron ascorbate chelate and ferric chloride to, 618
copper absorption and, 18
pancreatic lipase activity in vitro and, 629
Central nervous system, insulin and, 1063
Cephalic phase insulin response, 991
Cephalic phase responses, diet and, 991
Cereal
dietary fiber, diverticular disease and (rat), 788
polysaccharides in, digestion in small intestine, 778
Ceruloplasmin, zinc and copper supplementation and, in preterm infant, 24
Children/childhood
fatty acid composition of serum cholesteryl esters and diet, 708
fluoride intake, 701
growth, vegetarianism and, 1246
iron deficiency anemia, educational achievement and, 1221
milk consumption, postmenopausal bone density and, 270
China, low-selenium area
selenium bioavailability in, 439
selenium intake and metabolic balance of men from, 31
Cholecystokinin, in feeding and satiety, 1133
Cholesterol
dietary
biliary lipids and, in patients with/without gallstones, 414
plasma lipids, lipoproteins, and fecal steroid excretion, 399
dietary fats and, 190
plasma levels and lipoprotein distribution, dietary eggs and, 421
serum levels
dietary *cis* and *trans* fats and (rat), 475
dietary pectin, cellulose and lignin and, 207
dietary polyunsaturated fatty acids and, 560
in Mexican-Americans and Anglo-Americans, 1266
Cholesteryl esters, fatty acid composition, diet and, 708

Cholestyramine, pancreatic lipase activity in vitro and, 629
Choline, plasma concentration, during hyperalimentation, 577
Chromatography, reverse-phase high performance liquid chromatography, vitamin B_6 in human milk, 650
Chromium
  deficiency, age and, 454
  supplementation, in elderly, 454
Chylomicrons, zinc deficiency and (rat), 671
Cirrhosis, alcoholic, serum selenium in, 147
Citrus flour, passage rate and breath hydrogen, 44
Coconut oil, plasma lipid and lipoprotein response to, 190
Colon
  response to eating, 1025
  tumorigenesis, dietary *cis* and *trans* fats and, 475
Conflict, physiologic, pleasure in, 1151
Copper
  absorption
    dietary phytate and α-cellulose and, 18
    from human milk, cow's milk, and infant formulas (rat), 836
  bioavailability, phytate and α-cellulose and, 18
  status
    of adolescent females, 235
    fructose or starch ingestion and, 242
  supplementation, in low birth weight infants on parenteral nutrition, 24
Calcium gluconate supplementation, 681
Corn bran, passage rate and breath hydrogen, 44
Coronary heart disease
  life table analysis, 329
  risk factors among Jewish residents of Jerusalem, 511
Cortisol, plasma levels, in anorexia nervosa, 275
Cysteine, plasma concentration, during hyperalimentation, 577
Cystic fibrosis, vitamin D absorption in, 644

Diabetes mellitus
  dietary management, xanthan gum in, 597
  food physical factors and metabolic effects, 462
  gestational, recommendations of Second International Workshop-Conference, 1351
  metabolic response to macronutrients in, 449
  obesity in, and brain 5-hydroxytryptamine biosynthesis, 1240
Diet
  and biliary tract function, 1020
  bone mineral content and, 877
  brain function and, 348
  brain serotonin synthesis and (rat), 1072
  cephalic phase insulin response and, 991
  cholesterol-lowering, biliary and serum lipids and, 1201
  fatty acid composition, 317
  and fatty acid composition of adipose tissue lipids, 1206
  and fatty acid composition of serum cholesteryl esters in Finnish children, 708
  gastric acid secretion and, 1006
  gastric digestion and, 1003
  hypertension and, 909, 1331
  hypocaloric, in obese adolescent, glucose and protein metabolism in, 380
  low glycemic index carbohydrate foods for hyperlipidemia, 604
  manipulation, in management of rumination, 95
  maternal, *trans* fatty acids in breast milk and, 49
  nitrogen balance and, 1276
  poverty status and growth, 714
  protein-supplemented, mood and appetite during, 371
  relation to alcohol consumption and relative body weight, 289
  selection by experimental animals, 940
  and small intestine function, 1020
Dietary guidelines for Americans, scientific and public health rationale, 739
Dietary history
  7-day food record vs, in nutritional assessment of older adults, 542
  validity and reproducibility of method estimating intake during one month, 554
Digestion
  gastric, diet and, 1003
  pectin and, 495
  starches, food processing and, 1192
Diverticular disease, cereal dietary fiber and (rat), 788
Dopamine
  in food and drug reward, 1133
  urinary, in iron deficiency (rat), 263
Drinking, opioid ingestion and, 1099, *see also* Water

Eating behavior, chewing and swallowing microstructure of eating, 973
Education
  postgraduate, clinical nutrition training programs, 152
  school achievement and iron deficiency anemia, 1221
Egg consumption, variability of plasma cholesterol and lipoprotein cholesterol, 421
Energy balance
  in aerobic exercise, 764
  exercise and food intake and, 983
  metabolic studies, 1339
  sugar and (mice), 214
Energy efficiency, study method, 1290
Energy expenditure
  basal, overestimation by prediction equations, 1170
  during postexercise recovery, 69
  by pregnant and lactating females, 753, 1161
Energy metabolism
  during continuous vs sequential administration of amino acids and energy substrates (rats), 61
  during postexercise recovery, 69
  study method, 1290
Enkephalin, in feeding and satiety, 1133
Enzymes, intestinal, jejunoileal bypass and, 660
Ephedrine, chronic therapy, metabolic and thermogenic effects, 83
Eskimo, bone mineral and vitamin D status, 143
Estradiol-17β, dietary fiber and, 127
Exercise
  aerobic, thermogenic response, 764
  food intake and, 983

Fats
  body stores, food intake and, 1093
  cis, and colon tumors (rats), 475
  dietary
    and fatty acid composition of adipose tissue lipids, 1206

Fats—*continued*
and fatty acid composition of serum cholesteryl esters in Finnish children, 708
hypertension and, 1331
intake among Mexican-Americans and Anglo-Americans, 1266
plasma lipid and lipoprotein response to, 190
self-selection in experimental animals, 940
unsaturation, plasma lipids, lipoproteins and fecal steroid excretion and, 399
metabolic response to, in diabetics and nondiabetics, 449
trans, and colon tumors (rats), 475
Fatty acids
in adipose tissue, rapid sampling biopsy and long-term storage of specimens, 317
composition of serum cholesteryl esters in Finnish children, 708
dietary, whole body oxidation, 769
free, re-esterification, obesity and weight loss and, 198
polyunsaturated, serum cholesterol and, 560
trans, in human milk, 49
Federal nutrition policy, 891
Congressional perspective, 900
Department of Agriculture perspective, 895
Public Health Service perspective, 892
Ferric chloride, binding to raw wheat bran, alfalfa meal and α-cellulose, 618
Fertility, nutritional status and, 725
Fiber, dietary
in cereal foods, intestinal digestion, 778
copper absorption and, 18
diverticular disease and (rat), 788
fermentation and passage time, breath hydrogen and, 44
food intake and, 966
hormonal relationships, 127
metabolic effects in diabetics, 462
and pancreatic lipase activity in vitro, 629
Fluoride, dietary intake, in U.S. children, 701
Fluorosis, dental, 701
Folacin, in preterm and term human milk, 522
Folate conjugase, jejunoileal bypass and, 660
Food
processing, and glycemic index, 1192
sensory characteristics, 924
Food intake
butorphanol tartrate and, 1175
changes in pH, osmolarity or temperature and, 951
colonic motility and, 1025
control of
brain neurotransmitters in, 1133
fat metabolism and, 1093
gastrointestinal tract in, 1044
insulin and, 1063
liver in, 1050
stomach in, 1040
exercise and, 983
gut hormone response, 1033
in infectious disease, interleukin-1 in, 1179
in laboratory setting, 323
metabolic studies, 1339
nutrients and nonnutrients and, 966
opioid ingestion and, 1099
physical state (liquid-solid) of foods and, 956
variety in meal and, 932
Fructose, dietary, copper status and, 242
Fruits, serotonin content, 639

Gallstones
cholesterol, diet and, 1201
dietary cholesterol and biliary lipids in, 414
Gastric acid secretion
cephalic phase response, 991
diet and, 1006
Gastric emptying
in obese subjects, diet-induced thermogenesis and, 177
pectin and, 495
Gastric inhibitory peptide (GIP)
food physical properties and, 462
response to macronutrients, 449
Gastrointestinal tract
in control of food intake, 1044
in physiology of energy intake, 914
Geriatric patient
chromium supplementation in, 454
diet and bone mineral content, 877
metacarpal bone loss in females, vitamin D supplementation for, 470
nutritional assessment, dietary history vs 7-day food record, 542
vitamin C levels in elderly females, 656
Glucose
plasma levels, physical properties of legumes and, 462
response to macronutrients, 449
turnover, in obese adolescent on hypocaloric diet, 380
Glutamate, plasma levels, ingestion of MSG-containing soup and, 220
Glutathione, plasma concentrations, during hyperalimentation, 577
Glycemic index
food processing and, 1192
low glycemic index carbohydrate foods for hyperlipidemia, 604
Glycyl-L-tyrosine, utilization during long-term TPN (rat), 585
Growth
birth weight doubling and tripling times, 182
poverty-associated factors, 714
relation between birth weight and subsequent weight gain, 57
simultaneous vs sequential intravenous amino acids and energy substrates (rat), 61
vegetarianism and child growth in South India, 1246
zinc deficiency, pica, anorexia, and poor growth in preschool Chinese children, 694
Guatemala, nutritional supplementation and children's school-age behavior, 102

Hair, zinc levels, in preschool Chinese children, 694
Heart rate, in pregnant and lactating females, 1161
Hemoglobin distribution, in high-altitude populations, 1
Hepatitis, alcoholic, serum selenium in, 147
Hormones
in control of food intake, 1044
dietary fiber and, 127
of gut, food intake and, 1033
Hospital medical board, on nutritional care, 906

Hunger, physiologic determinant, 1083
5-Hydroxyindoleacetic acid, urinary excretion, dietary serotonin and, 639
5-Hydroxytryptamine biosynthesis, in brain, in obese diabetics, 1240
Hyperactivity, phenylalanine metabolites and, 361
Hypercarotenemia, in anorexia nervosa, 1183
Hyperlipidemia, dietary management, low glycemic index carbohydrate foods in, 604
Hypertension
  calcium supplementation and, in females, 12
  dietary calcium, fat and magnesium in, 1331
  nutritional aspects, 909

IgA, in tears, age, malnutrition and renutrition and, 281
Ileum, proximal transposition, mucosal growth and enzyme activity and (rat), 805
Immune function, in marginal zinc deprivation (monkeys), 252
Immunodeficiency syndrome, acquired, *see* AIDS
India, vegetarianism and child growth, 1246
Infant
  behavior
    neurotransmitters and nutrients and, 352
    zinc deficiency and (monkeys), 1229
  birth weight, *see* Birth weight
  breast-fed, selenium status, maternal selenium supplementation and, 829
  iron supplementation, zinc nutrition and, 683
  nutrition, *see* Breast-feeding
  preterm
    nutrition during neonatal period, 522
    parenteral nutrition, zinc and copper supplementation, 24
  zinc deprivation, behavioral effects (monkeys), 1229
Infant formulas, copper absorption from (rat), 836
Infection, appetite loss in, interleukin-1 and, 1179
Inflammatory bowel disease, vitamin D absorption in, 644
Insulin
  cephalic phase response, 991
  food physical factors and, 462
  relation to CNS and control of food intake and body weight, 1063
  response to macronutrients, 449
Interleukin-1, and infection-induced anorexia, 1179
Intestines
  absorption of thiamin from yeast-containing sorghum beer (rat), 666
  adaptation to jejunoileal bypass, 660
  carbohydrate absorption, pectin and, 495
  in control of food intake, 1044
  diet and small intestine function, 1020
  digestion of dietary polysaccharides in small intestine, 778
Iron
  deficiency
    urinary catecholamines at rest and following stress (rat), 263
    in U.S. population, 1318
  status, in U.S. population, 1318
  supplementation
    and educational achievement in iron-deficiency anemia, 1221
  in infants, zinc nutrition and, 683
Iron ascorbate chelate, binding to raw wheat bran, alfalfa meal and α-cellulose, 618
Ischemic heart disease, mortality statistics, 329
Ischymetric hypothesis, feeding behavior, 1083

Jejunoileal bypass, adaption of intestinal folate conjugase following, 660
Jejunum, thiamin uptake, alcoholism/alcohol and, 121
Jewish population, in Jerusalem, coronary heart disease risk factors, 511

Kidney failure, chronic, skeletal muscle function in, nutritional status and, 845
Kwashiorkor, free secretory component and IgA in secretions, 281

Lactase deficiency, in osteoporosis, calcium absorption from milk and yogurt, 1197
Lactation
  energy expenditure in, 753, 1161
  heart rate in, 1161
  selenium supplementation during, 829
  water intake during, 870
Lactose malabsorption, calcium absorption from milk and yogurt, 1197
Learning disorders, phenylalanine metabolites and, 361
Legumes
  physical properties and metabolic effects, 462
  starch hydrolysis in, 38
Letters to the editor
  alleviation of lactose malabsorption from sweet acidophilus milk, 345
  calcium intake and bone, 568
  gestational zinc deficiency, 343
  RDA for vitamin E, 568
  relative dose response test, 342
  zinc in peritoneal dialysis, 749
Lignin, supplementation, serum cholesterol and, 207
Lipid emulsions, in TPN, reticuloendothelial function and (guinea pig), 855
Lipids
  biliary
    cholesterol-lowering diet and, 1201
    dietary cholesterol and, 414
    dietary fiber and cholestyramine and, 629
  plasma
    dietary cholesterol and degree of fat unsaturation and, 399
    dietary fats and, 190
    low glycemic index carbohydrate foods and, 604
Lipoprotein(s)
  cholesterol, dietary eggs and, 421
  cholesterol-lowering diet and, 1201
  composition, dietary cholesterol and fat unsaturation and, 399
  dietary fats and, 190
  dietary polyunsaturated fatty acids and, 560
Liver
  in control of food intake, 1050
  disease, alcoholic, serum selenium and, 147

Magnesium supplementation, for hypertension, 1331
Malabsorption syndrome, vitamin D absorption in, 644
Marasmus, free secretory component and IgA in secretions, 281

Mental retardation, rumination in, dietary management, 95
Milk
  calcium absorption from, in lactase-deficient patients, 1197
  cow's, copper absorption from (rat), 836
  human
    copper absorption from (rat), 836
    preterm and term, vitamin B_6, vitamin C, and folacin levels, 522
    proteins, 1299
    selenium concentration, maternal selenium supplementation and, 829
    trans fatty acids in, 49
    vitamin B_6 in, 650
  intake, during childhood and adolescence, postmenopausal bone density and, 270
Minerals, dietary intake, in Mexican-Americans and Anglo-Americans, 307
Monosodium L-glutamate (MSG), in soup, plasma glutamate response to, 220
Morphometry, vitamin D supplementation for metacarpal bone loss in elderly females, 470
Mortality
  anthropometric indicators, 296
  ischemic heart disease, 329

Naloxone, drinking and eating behavior and, 1099
Neurotensin, in feeding and satiety, 1133
Neurotransmitters
  dietary precursors, behavior and, 366
  in food and drug reward, 1133
  food intake and, 1033
Nitrogen
  dietary, urine nitrogen as validity measure, 1276
  maintenance requirements during TPN (primates), 485
Nitrogen balance
  during continuous vs sequential administration of amino acids and energy substrates (rats), 61
  metabolic studies, 1339
  in obese adolescent on hypocaloric diet, 380
  during TPN (primates), 485
  urine nitrogen as validity measure, 1276
Norepinephrine, urinary, in iron deficiency (rat), 263
Nutrition
  alcohol consumption, nutrient intake and relative body weight, 289
  nasoenteral, plasma concentrations of transsulfuration pathway products during, 577
  parenteral
    low birth weight infants, zinc and copper supplementation in, 24
    simultaneous vs sequential amino acids and energy substrates, metabolic response, 61
  prophylactic, for chemical workers, 746
  total parenteral (TPN)
    lipid emulsions in, reticuloendothelial function and (guinea pig), 855
    maintenance nitrogen requirements (primates), 485
    plasma concentrations of transsulfuration pathway products during, 577
    utilization of *N*-acetyl-L-tyrosine and glycyl-L-tyrosine during (rat), 585
    vitamin E and selenium status, 432
Nutritional assessment
  geriatric patient, dietary history vs 7-day food record, 542
  iron, in U.S. population, 1318
  newborn infant, relation between birth weight and subsequent weight gain, 57
  skeletal muscle function in chronic renal failure, 845
Nutritional status
  children in Cusco, Peru, 531
  in chronic renal failure, skeletal muscle function and, 845
  fertility and, in Bangladesh, 725
  zinc and copper in adolescent females, 235
Nuts, serotonin content, 639

Oat bran, passage rate and breath hydrogen, 44
Obesity
  in adolescent, hypocaloric dietary therapy, glucose and protein metabolism in, 380
  in diabetic, brain 5-hydroxytryptamine biosynthesis, 1240
  diet-induced thermogenesis in, 177
  ephedrine treatment, 83
  exercise and food intake, 983
  fat metabolism and food intake, 1093
  free fatty acid metabolism and, 198
  morbid, surgical guidelines, 904
  physiology of energy intake, 914
  protein-supplemented diet, mood and appetite during, 371
Opioids, ingestion of, drinking and feeding behavior and, 1099, 1175
Oral sensor, for measuring chewing and swallowing microstructure of eating, 973
Osmolarity, food intake and, 951
Osteoporosis
  bone density and, 270
  in Eskimos, 143
  lactase deficiency in, calcium absorption from milk and yogurt, 1197
Oxidation, dietary fatty acids, 769
Oxygen consumption
  chronic ephedrine treatment and, 83
  in pregnant and lactating females, 1161

Pancreatic lipase, in vitro activity, dietary fiber and cholestyramine and, 629
Pectin
  pancreatic lipase activity in vitro and, 629
  solid-liquid meal digestion and, 495
  supplementation, serum cholesterol and, 207
Peptides, of gut, food intake and, 1033
Peru, Cusco Health District, nutritional status of children, 531
pH, food intake and, 951
Phenylalanine metabolites, in phenylketonuria evaluation, 361
Phenylketonuria, 361
Phytate, copper absorption and, 18
Pica, zinc deficiency and, in preschool Chinese children, 694
Pleasure, in physiologic conflicts, 1151
Polycythemia, in high-altitude population, 1

Polymorphonuclear leukocytes, function, in marginal zinc deprivation (monkeys), 252
Potassium
intake, food records, 391
total body, in AIDS patient, 1255
Prealbumin, zinc and copper supplementation and, in preterm infant, 24
Pregnancy
energy expenditure in, 753, 1161
heart rate in, 1161
in teenager, zinc supplementation during, 815
Presidential address: Where's the beef? 564
Problem-solving, children's response to, nutritional supplementation and, 102
Prostate cancer, risk modification through dietary intervention, 127
Protein
dietary intake, self-selection in experimental animals, 940
food intake and, 966
human milk, 1299
metabolic response to, in diabetic and nondiabetic persons, 449
Public health, dietary guidelines for Americans, 739
Pyridoxal, in human milk, 650
Pyridoxal-5'-phosphate, in human milk, 650
Pyridoxine, in human milk, 650

Religion (religiosity)
coronary heart disease and risk factors among Jewish population in Jerusalem, 511
dietary and hormonal interrelationships in Seventh Day Adventists, 121
Response surface methodology, in evaluation of sensory characteristics of foods, 924
Reticuloendothelial system, and lipid emulsions in TPN (guinea pig), 855
Retinol-binding protein, zinc and copper supplementation and, in preterm infant, 24
Rumination, dietary management, 95

Safflower oil, plasma lipid and lipoprotein response to, 190
Saliva, free secretory component and IgA in, age, malnutrition and renutrition and, 281
Salivation, cephalic phase response, 991
San Antonio heart study
dietary intakes of essential nutrients among Mexican-Americans and Anglo-Americans, 307
macronutrient intake by Mexican-Americans and Anglo-Americans, 1266
Satiation
chewing-swallowing pattern, 973
dietary management of rumination, 95
inventory control model, 914
liver's role in, 1050
physiologic determinant, 1083
signals from gastrointestinal tract, 1044
stomach in (rat), 1040
Secretory component, free, in secretions, age, malnutrition and renutrition and, 281
Selenium
balance and intake of men from low selenium areas of China, 31
bioavailability, in low selenium area of China, 439
serum levels, and hepatic structure and function in alcoholics, 147
supplementation, in breast-feeding mothers, 829
TPN and, 432
Sensory characteristics of food, 924
Serotonin
dietary, urinary 5-hydroxyindoleacetic acid excretion and, 639
in fruits and nuts, 639
sleep behavior and, 352
synthesis, diet and (rat), 1072
Seventh Day Adventists, dietary and hormonal interrelationships, 121
Short bowel, adaptive response to, experimental study, 805
Skeletal muscle function, in chronic renal failure, nutritional status and, 845
Sleep, brain serotonin levels and dietary tryptophan, 352
Social involvement, children, nutritional supplementation and, 102
Socioeconomic status
dietary intake of macronutrients and, 1266
and nutrient intake among Mexican-Americans and Anglo-Americans, 307
Sodium intake, food records, 391
Sorghum beer, yeast-containing, intestinal absorption of thiamin from (rat), 666
Soviet Union, prophylactic nutrition, for chemical workers, 746
Starch
dietary, copper status and, 242
digestion rate, food processing and, 1192
energy balance and thermogenesis and (mice), 214
hydrolysis of, in legumes, 38
intestinal digestion, 778
resistant, 778
Steroids, fecal excretion
dietary cholesterol and fat unsaturation and, 399
dietary *cis* and *trans* fats and (rat), 475
Stomach
digestive process in, 1003
role in control of food intake, 1040, 1044
Stress
children's response to, nutritional supplementation and, 102
in iron deficiency, urinary catecholamines and (rat), 263
Sugar, and energy balance (mice), 214
Superoxide dismutase, erythrocyte, fructose ingestion and, 242
Surgery, for morbid obesity, guidelines, 904

Tears, free secretory component and IgA in, 281
Temperature, food intake and, 951
Testosterone, dietary fiber and, 127
Thermogenesis
aerobic exercise-induced, 764
dietary fuels and, study method, 1290
diet-induced, 177
ephedrine-induced, metabolic effects of chronic ephedrine treatment, 83
metabolic studies, 1339
sugar and starch and (mice), 214

Thiamin
intestinal absorption from yeast-containing sorghum beer (rat), 666
jejunal uptake, alcoholism/alcohol exposure and, 121
Thymulin (FTS-Zn) activity, in anorexia nervosa, 275
Thyroid hormones
in anorexia nervosa, 275, 1183
chronic ephedrine treatment and, 83
Tocopherol, serum levels, dietary *cis* and *trans* fats and (rat), 475
Toxicology, prophylactic nutrition for chemical workers, 746
Transsulfuration pathway, products of, plasma levels during hyperalimentation, 577
Trypsin inhibitor, food intake and, 966
Tryptophan
behavior and, 352, 366
brain serotonin synthesis and (rat), 1072
dietary, infant sleep behavior and, 352
Tyrosine, behavior and, 366

Undernutrition, and school-age behavior, 102
Urinalysis
5-hydroxyindoleacetic acid, dietary serotonin and, 639
nitrogen excretion and dietary nitrogen intake, 1276

Vegetarianism
child growth in South India and, 1246
dietary and hormonal interrelationships, 121
Vitamin A status, in anorexia nervosa and bulimia, 1183
Vitamin B_6
in human milk, 650
preterm and term, 522
status in females, age and, 226
Vitamin C
in preterm and term human milk, 522
supplementation, in elderly females, 656
Vitamin D
absorption, in healthy persons and in intestinal malabsorption syndromes, 644
intake, and blood pressure in females, 135
for metacarpal bone loss in elderly females, 470
oral preparation, in intestinal malabsorption syndromes, 644
serum levels, in Aleuts (Eskimos), 143
Vitamin E, TPN and, 432
Vitamins, dietary intake, in Mexican-Americans and Anglo-Americans, 307

Water
gastric emptying, pectin and, 495
intake
butorphanol tartrate and, 1175
by lactating females, 870
total body, in AIDS patient, 1255
Weight loss
chronic ephedrine treatment and, 83
free fatty acid metabolism and, 198
maternal, *trans* fatty acids in breast milk and, 49
Wheat bran
pancreatic lipase activity in vitro and, 629
passage rate and breath hydrogen, 44
raw, binding of iron ascorbate chelate and ferric chloride to, 618
Whey, 1299
Work capacity, in high-altitude population, 1

Xanthan gum, in dietary management of diabetes, 597

Yeast, and intestinal absorption of thiamin from sorghum beer (rat), 666
Yogurt, calcium absorption from, by lactase-deficient persons, 1197

Zinc
dietary, absorption in alcoholic, 688
plasma levels, in anorexia nervosa, 275
status
of adolescent females, 235
of infant, during iron supplementation, 683
supplementation
in low birth weight infant on parenteral nutrition, 24
in teenage pregnancy, 815
Zinc deficiency
marginal
chylomicrons and (rat), 671
immunohematologic effects (monkey), 252
infant behavior and (monkey), 1229
in preschool Chinese children, 694
